

Prof. Ibrahim Yakoub-Agha

Current chair of the Chronic Malignancies Working Party of the EBMT and past President of the Francophone Society of Bone Marrow

Current chair of the **Chronic Malignancies Working Party (CMWP)** of EBMT and past President of the **Francophone Society of Bone Marrow Transplantation and Cellular Therapy (SFGM-TC)** (2012-2016), Prof. Ibrahim Yakoub-Agha has served as Head of the Hematopoietic Cell Transplantation and cellular therapy Unit at Lille University Hospital since 2008. Upon completion of his PhD degree in 2007 at Lille University Hospital, he was appointed Professor of Hematology and currently holds the position of coordinating professor for the Department of Hematology at Lille Faculty of Medicine.

He is also Editor in Chief of *Current Research in Translational Medicine*, has authored or co-authored more than 400 scientific articles in the field of allogeneic hematopoietic cell transplantation with a focus on studies concerning patients with myelodysplastic syndrome, multiple myeloma and immune effector cells such as CAR T cells, and has written several chapters for referential textbooks.

Prof. Yakoub-Agha completed his four-year residency in Medical Biology at Brest University Hospital (1986-1990) followed by a two-year fellowship in Clinical Hematology at the University of Paris VI (1990-1992). In 1995 he obtained a Specialized University Diploma in Oncology at University of Paris XI/Institut Gustave Roussy before going on to complete a two-year fellowship in Allogeneic Hematopoietic Cell Transplantation at the Saint-Louis University Hospital in Paris from 1996 to 1998.

Active Memberships

- Member of the European Society for Blood and Marrow Transplantation. (EBMT) and chair of the CMWP.
- Member of the American Society of Hematology (ASH)
- Member of the International Transplantation Society (ITS)

- Member of the European Hematology Association (EHA)
- Member of the French Society of Hematology (SFH)
- Member of the Francophone Intergroup for Myeloma (IFM)
- Member of honour of the Francophone Society of Bone Marrow Transplantation and Cellular Therapy (SFGM-TC) and past president of the society from 2012-2016
